Process to schedule a make-up exam:

Students leaving early for summer programs and camps and/or missing some of final exams need to contact their housemaster and provide written requests from parents/guardians with the dates of and reasons for the absences.

Students will inform housemasters and/or department heads of the date they will make up various exams. Department Heads / Housemasters will record this information on a shared Google Doc indicating the date of the make-up exam and tests to be taken on that day (a student can choose to take more than one test on a make-up day). Students will also inform their teacher that they will be missing the exam.
